EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF SCIENCE AND TECHNOLOGY POLICY  
WASHINGTON, D.C. 20503

September 15, 1986

Dear Charlie,

The attached legal-sized manuscript, entitled "A Long-Term Study of Ecosystem Contamination with 2,3,7,8-Tetrachlorodibenzo-p-dioxin," is the original to be forwarded to Dr. Masuda for publication in the Proceedings of Dioxin '86.

I hope your presentation went well and that you enjoyed interacting with the current group of "dioxin experts." I'm completing my plans for attending the Atomic Bomb Casualty Commission in the spring of 1987. I'll keep you posted of my schedule. Again, my thanks for your assistance in the dioxin program.

Sincerely yours,

Alvin L. Young, Ph.D.  
Senior Policy Analyst

Dr. Charles E. Thrallken
